## **DAY TODAY**

BY PETER VIDAL

**ARIES (Mar 21 - Apr 20)** Mars' intriguing relationship with Neptune is pretty near perfect as far as

all work and professional ambitions are concerned, but only if you are able to recognise the difference between how the world is and how you'd like it.

**TAURUS (Apr 21 - May 21)** Like most people, you are blessed with a planetary

alignment which confers inspiration and imagination. What is more impressive in your chart is the manner in which your creative powers and spiritual aspirations are triggered. Try to see the best in people.

**GEMINI (May 22 - June 21)** Continued close attention to a financial matter is desirable, although not essential. When other people abandon their responsibilities, you will be the one who knows where to turn, for you have an amazing wealth of experience to draw

CANCER (June 22 - July 23) Your daily planets

on from the past.

reveal this to be a special day if you have proposals to put forward and arguments to win. However, the long-term perspective evokes deep memories and could cause you to reflect on all those things which happened so long ago. Hopefully certain recollections are not painful.

LEO (July 24 - Aug 23) Secrecy is not one of your better-known characteristics, but today you really have to keep something to yourself. Don't worry about deceiving partners as long as there is no self-interest involved. It may be, for example, that you keep something from them for their

**VIRGO (Aug 24 - Sep 23)** If you are beginning to feel as if you're walking up the down escalator, then you're probably pretty much in

own good.

tune with the stars. The secret is to change direction now, before you end up in the wrong place! You won't lose the thread.

LIBRA (Sep 24 - Oct 23) Carry on with allimportant professional moves, regardless of associates' potentially time-

wasting or disruptive actions. If you give charitable activities a high priority you will do what the mystical philosophers call 'making merit', with good results.

SCORPIO (Oct 24 - Nov 23)

Pluto has played a profound role in your chart for many years, so emotional

intensity is nothing new. On the other hand, occasionally a new pitch of excitement is reached and, right now, under the Moon's powerful sway, you may demand a new level of commitment.

SAGITTARIUS (Nov 24 - Dec 22) Your material and business interests

may have to come first, no matter how much you have to spend or invest. If you have any uncertainties at work, or in any major public ambition, you may put important developments on hold until the picture is clearer.

CAPRICORN (Dec 23 - Jan 20)

Sober Saturn and jovial Jupiter are once again being activated.

reminding everyone that you are much more than the materialistic stereotype of an astrological cliché. Don't be afraid to speak your mind.

AQUARIUS (Jan 21 - Feb 19) Spare a little time for vour physical wellbeing, and use the

opportunity provided by today's lunar position to clean up your diet and check out a new fitness regime. Don't be perturbed by a financial delay, but keep an eye on other people, just to make sure that they're doing what they said they'd do.

PISCES (Feb 20 - Mar 20) The Sun is sailing along in a sensitive region of your solar chart, which is astrological short-hand for saying that although

colleagues may seem to be quite happy, someone, somewhere, is about to hit the roof. Keep your psychic antennae buzzing.
